

Bringing you the most extensive product portfolio of bulk returnable trip containers and an extensive range of solutions for managing your assets.

MacroServices® Delivering Reliable Asset Management Solutions

Our MacroServices department has a wealth of experienced personnel trained in all aspects of the supply chain across many different industries. Using this expertise in conjunction with the rental and customization programs that we offer, we can provide a range of tailored solutions for manage your supply chain needs.

Core Services

RENTAL OPTIONS

Short-Term

The MacroServices short-term rental program allows you to increase flexibility and improve quality when harvesting or shipping your products without tying up valuable capital. With this program you'll receive all of the benefits associated with using MacroBins® without the long-term commitment. At the end of the rental agreement you will have the option to return the bins, buy them at a reduced rate, or apply a credit towards the purchase of new bins.

One-Way

The MacroServices one-way rental program delivers substantial cost savings by taking container shipping return charges out of the equation. If your product needs to be shipped from your grower on the west coast to your distribution center east of the Mississippi, our bins can be used for the one-way trip, then MacroServices will arrange for container pickup when the shipment is complete.

DESIGN AND CUSTOMIZATION

Your business is unique and may require the need for modifications to our products in order to support your packaging goals. Our designers can discuss changes to our current product portfolio, and even come up with new and innovative packaging solutions.

Contact MacroServices to analyze your business

By conducting an internal audit of your business, MacroServices can provide a snapshot of how your business can profitably grow with our help. We will recommend the best customized solution based on your needs and we can help you implement an in-house asset management system or provide you with an outsourced solution.
