

Combo ProBin 46

Features and Benefits

The Combo ProBin is manufactured with FDA-approved materials that are certified safe for use with food products, making it ideal for **handling and transporting processed meats and poultry**. The smooth, nonporous surfaces are easy to clean and the rounded corners won't trap debris. This large capacity rectangular bin has 4-way chamfered forklift openings for easy forklift entry, and the design is ideal for quick nesting and denesting.

Transportation Bin for Meat and Poultry

The Combo ProBin is a nestable food processing bin with a load capacity of 2,100 pounds, but, when empty, is so lightweight it can easily be moved by one person, or nested for a 10:1 return ratio.

Specifications for the Combo ProBin

Load Capacity:	2,100 lbs / 952 kg
Volume Capacity:	271 gallons / 1,026 liters
Tare Weight:	72 lbs / 33 kg (+/- 5%)
Molding Process:	High-pressure injection molding
Material:	Polypropylene, U.V. rating 36630 KJM (10 year AZ)
Approval:	FDA-regulated material
Nesting Height / Angle:	5, 15" (156.21 mm) / 3.5 degrees
Wall Thickness:	1/4" / 6.3 mm
Fork Lift Entry:	Four-way
External Dimensions (Top of Bin)	49" (L) x 41.75" (W) x 46" (H) (1,244 mm x 1,060 mm x 1,168 mm)
Internal Dimensions (Bottom of Bin)	39.8" (L) x 32.1" (W) x 46" (H) (1,013 mm x 815 mm x 1,168 mm)

Feature Highlights

- **Easy-to-sanitize** MacroBins keep cleaning costs to a minimum. A high-pressure wash removes most debris; a nonabrasive brush can dislodge any remaining items.
- **Splinter-resistant plastic** eliminates contamination problems associated with wood chunks, paint chips, or metal fragments. Bin repair is inexpensive with hot air welding.
- **Nonporous surfaces** won't absorb water which greatly reduces the risk of contamination, and they provide a constant tare weight throughout their use.
- **FDA-approved materials** are certified safe for use with food products, eliminating many HACCP problems associated with wood bins.
- **Injection-molded, high impact resistant plastic** stands up to heavy day-to-day use. The one-piece design eliminates the problem of product getting trapped between the side walls and base.
- **Lightweight construction** reduces shipping costs and makes Combo Pro bins easier to move.
- **Rounded corners and smooth surfaces** mean less damage to your product. The need for expensive sleeves or liners may be eliminated.
