

Hybrid 44P-FV

Hybrid 44P-FV The ultra-light, yet strong, Hybrid 44P is a revolutionary plastic bin. It easily assembles in seconds to offer a great bin solution for handling, storing, or shipping agricultural product. Ventilation can be configured for the specific application, or can be completely solid. Shown here is the fully ventilated version, indicated by the suffix "-FV". It is also shown here with the new reinforced columns, for added stacking capacity. When empty it is easily disassembled and nested for efficient empty storage or efficient freight, which makes it a perfect returnable shipping bin solution, and why its moniker has become the **"Shipper Bin"**

Specifications for the Hybrid 44P-FV 2-Way Pallet

Load Capacity:	950 lbs. (430.9 kg)
Volume Capacity:	44,676 cubic inches (732.1 liters)
Tare Weight:	66 lbs (29.9 kg)
Maximum Stack Weight:	8,500 lbs (3856 kg)
Molding Process:	High-pressure injection molding
Material:	High-strength PP, U.V. stabilized
Approval:	FDA-regulated material
Ventilation Slots:	Configurable, vented or solid
Fork Lift Entry:	2-Way openings, straps on long sides or 2-Way openings straps on short sides
External Dimensions straps on long side:	48" (L) x 44" (W) x 30 3/4" (H) 1219 mm (L) x 1118 mm (W) x 781 mm (H)
External Dimensions straps on short side:	48" (L) x 44" (W) x 32 3/64" (H) 1219 mm (L) x 1118 mm (W) x 814 mm (H)
Options:	Color options, Stamping
Internal Dimensions:	Length: 46 5/8" / 1,185.9mm Width: 42 1/8" / 1078 mm Minimal Clearance: 36 49/50" / 939.3mm

Features

- Disassembles for efficient shipping
- Easy & quick snap on off frame
- Easy to repair
- Interlocking when stacked for safety
- Smooth soft surfaces to protect fruit
- Shape offers a bruise buffer zone on outside of walls to protect fruit from adjacent stacks
- Durable FDA-approved plastic
